What's CF:G?

Free courses teaching women the basics of web development and coding, getting them started in tech and startups.

This Course

This weekend, you will (hopefully) learn:

Basics of HTML, CSS, and responsive design

How to use Git

Basics of Javascript and jQuery

Where to ask for help if you get stuck

Future

Should you need help or more access to the materials used in this class, they are all stored here:

http://edinburgh.codefirstgirls.org.uk

Preparation

What you should have for the course:

SublimeText2

Text Editor

Download

Chrome

Browser

Download

Github

Version Control

Download

Bootstrap

UI Framework

Download
